

## The Greatest Toy of the Year

—this  
little  
electric  
range

### *Western Electric Junior Range*

Here's just the gift for that little girl of yours. Picture her delight with a real stove, for where is the little girl who doesn't like to cook? Real cooking is ever so much more fun than "make-believe" cooking, and with this range the children will be learning to cook while they play.

When other toys have lost their newness, this little electric stove will continue a source of joy and education throughout the year.

The Junior Range actually cooks real food. It is practical and safe; no smoke, no flame. A real electric range bearing a name that on any electrical appliance is a guarantee of its quality. Comes complete with a little Junior cookbook, a kettle, skillet and bake-pan. It's about the size of a toy piano. You simply attach it to an electric socket, turn the switch, and right away the cooking can begin.
