

For That Boy of Yours

And that girl, too! My, how tickled they'll be with a box of Richter's Anchor Blocks for Christmas! Buy them a set! They last for years, and will furnish fun as long as they last.

And think of those long, stormy days when the children have *nothing to do!*

Maybe it will start your boy on a splendid, useful career. What he builds today in miniature he may build tomorrow in the world of men, as a famous architect.

RICHTER'S ANCHOR BLOCKS

With Richter's Anchor Blocks the children can build the most wonderful bridges, forts, castles and churches you ever saw. They can build all the models in the instruction book—little ones and big ones, for little chaps and bigger chaps.

They can copy buildings they have seen, and build original models, too! Not skeleton structures, but the real thing in miniature. Finished models are easily dismantled—nothing to take apart—just push them over.

Get a Set Now

Go to any good toy dealer and ask for Richter's Anchor Blocks. Buy a set to make the children happy.

Or if you haven't a little boy of your own, there is some other wretched little chap whose folks can't buy him one. Why don't you?
